

MOHD SAMI

DATA SCIENTIST | AI & ML ENGINEER

+91 8104302638 • siddiquisami2580@gmail.com • Mumbai, India

[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Final-year AI & Machine Learning engineering student with hands-on expertise in Data Analytics, Business Intelligence, and Data Science. Proficient in Python, SQL, Power BI, and Excel for end-to-end data workflows — from data cleaning and EDA to dashboard development and predictive modeling. Experienced in building Generative AI solutions including Retrieval-Augmented Generation (RAG) systems, LLM-powered applications, and Agentic AI pipelines. Seeking a Data Scientist or Data Analyst role to apply analytical thinking and technical skills toward data-driven decision-making.

EXPERIENCE

Power BI Developer Intern | GET AnalyticX

Jul 2025 – Aug 2025

Remote | Mumbai, India

- Designed and developed interactive Power BI dashboards to analyze business and industry datasets, enabling data-driven reporting for stakeholders.
- Performed end-to-end data cleaning, transformation (Power Query), and DAX modeling to ensure data accuracy and dashboard reliability.
- Built a Data Science Salary Dashboard revealing compensation trends, role-based salary distributions, and geographic salary insights across India.

PROJECTS

Pregnancy Risk Detection System [\[GitHub\]](#)

Tools: Python, Scikit-Learn, Streamlit

- Built an end-to-end machine learning application to classify maternal pregnancies into High Risk and Low Risk categories.
- Performed data preprocessing including missing value imputation, feature scaling, and feature engineering.
- Trained and evaluated a Random Forest Classifier achieving 99.58% accuracy with 100% precision.
- Developed an interactive Streamlit dashboard with prediction confidence, feature importance visualization, and clinical interpretation.
- Deployed the application online for real-time predictions.

Alzheimer's Disease Detection from MRI using Deep Learning [\[GitHub\]](#)

Tools: Python, TensorFlow, Keras, ResNet50, NumPy, Streamlit

- Developed a ResNet50-based transfer learning model to classify Alzheimer's disease stages from brain MRI images, achieving **~90% validation accuracy**.
- Implemented **image preprocessing, early stopping, and model checkpointing** to improve training performance and prevent overfitting.
- Built a responsive **Streamlit** web application for real-time MRI upload, disease stage prediction, confidence scores, and probability visualization.
- Evaluated model performance using confusion matrix and classification metrics, and maintained the complete project using Git and GitHub.

SitePilot – Web Crawl RAG Assistant [\[GitHub\]](#)

Tools: Python, FastAPI, LangChain, ChromaDB, LLMs

- Developed a Retrieval-Augmented Generation (RAG) application for website-based question answering — crawls websites, chunks and embeds content into a local vector database (ChromaDB), and answers queries with source citations.

- Implemented smart web crawling, conversation memory, hallucination prevention, and document processing pipelines using FastAPI, LangChain, and local LLMs.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Data & Analytics: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Excel (Advanced), Power BI, Power Query, DAX

Machine Learning & AI: Machine Learning, NLP, TensorFlow, Scikit-learn

GenAI & Agentic Systems: LangChain, LangGraph, CrewAI, LLMs, RAG Pipelines, Vector Databases (ChromaDB), MCP, n8n, Generative AI

Web Frameworks: FastAPI, Flask, Streamlit, Gradio

Databases: MySQL

Cloud & DevOps: AWS, Docker, Git, GitHub, Vercel, Hugging Face

AI Dev Tools: Claude Code, ChatGPT, Gemini, Grok

Platforms: Jupyter Notebook, Google Colab, VS Code, Cursor, Kaggle, PowerPoint

EDUCATION

B.E. in Computer Science & Engineering (AI & ML)

2023 – 2027 (Final Year)

University of Mumbai | India

CERTIFICATIONS

- Power BI Certification – Integrity Software Pvt. Ltd.
- AWS Cloud Foundation Trainee Graduate – Amazon Web Services

ADDITIONAL INFORMATION

Languages: English (Professional Proficiency), Hindi (Native)

Interests: Chess, FIFA, Gym, Coding, Artificial Intelligence & Emerging Technologies
